Dear M. Bonnefil:

Under separate cover we have mailed to you today a small package containing three lots of visiting cards made out to: Adrien W. Bonnefil, Port-au-Prince; Paula Bonnefil, Port-au-Prince; and M. et Mme. Adrien W. Bonnefil, Port-au-Prince. Please accept them with our compliments.

Unfortunately, we were unable to send you also at this time your business cards, as they were not ready. In due course we will forward them to you.

I hope you are enjoying your visit to this country and that I shall have the pleasure of seeing you before you leave.

With best regards for you and your family, I remain

Cordially yours,

(LOM)

Mr. Edward H. Weitzen, Chairman
American Bank Note Co.
70 Broad Street
New York, N.Y. 10004

Rec'd. 2/16/72

Dear Mr. Weitzen:

Upon return from my vacation in Detroit, Mich.
I found here your cable of December 22 reading :

"ADRIEN BONNEFIL, SOUS DIRECTEUR
AMERICAN BANK NOTE COMPANY WISHES YOU AND
YOUR ASSOCIATES MERRY CHRISTMAS AND
PROSPEROUS NEW YEAR.
EDWARD H. WEITZEN CHAIRMAN, WILLIAM R. BARRETT
PRESIDENT, L.O. MC GEEHE VICE PRESIDENT."

The Banque did not forward it to me and I have
first to apologize for this late acknowledgement.

I thank you sincerely for your good wishes
which I shared with my colleagues at the office.

They join me in sending to you, to Mr. William R.
Barrett, President and to Mr. L. Owen Mc Gehee, Vice President, -
to whom, incidentally, I had the opportunity and the pleasure to
talk from Detroit on New Year's eve, - our very best wishes for a
prosperous 1972 year for the American Bank Note Company, and for
your personal happiness and that of your associates.

copy

Yours very truly,

Adrien W. Bonnefil
Adrien W. Bonnefil
Sub-Manager

P.S. I take the liberty of sending a copy of this
letter to your colleagues.

Dear Mr. McGehee:

I have your memorandum of January 28.

I have no plan for travelling to New York or Miami during the month of February and therefore regret that I will not be able to pick up Mr. Bonnefil's business cards.

However, if it is important enough, I would suggest that you call a friend of mine, Mr. Olivier Coquelin, telephone (212) 486 1566, between 11:00 a.m. and 4:00 p.m. Mr. Coquelin will be travelling to Port-au-Prince around February 18 and may possibly be kind enough to bring this small parcel with him if it is delivered to his place.

By copy of this letter, I am advising him of this possible call.

Very truly yours,

GEORGES N. LEGER Jr.

Dear M. Bonnefil:

✓ Thank you very much for the note enclosed in your letter of January 28th. I too must apologize for the delay in answering, which was entirely due to my absence from the office for the last two weeks.

I have arranged with M. Georges Léger the delivery of your business cards and these you should receive in the next few days.

I hope, in the near future, to come and see you, and in the meanwhile, please give very warmest respects to Mme. Bonnefil.

Yours sincerely,

DATE 5/5/1972

to
New York

I am happy to report that all seems well at the Banque Nationale de la République d'Haiti. M. Adrien Bonnefil advised me that he had called Jack Goggin on the telephone about the Bank's pressing need for the 50 Gourdes notes of our order of August 26 1971. He seemed satisfied with our delivery of April 27 this year.

*acked
5/12/72
LOM*

For the future, he told me confidentially that he did not like competitive bids and the problems and heated atmosphere they created and that he would try and feed to us small orders, in the region of 15 million notes each one, over the next years. Anything over this quantity, on an individual order, and he felt that M. André would insist on a competitive bid. He asked for our cooperation on this, in that we would not take advantage of our privileged situation by raising our prices.

The Bank is beginning to consider the abolition of the 2 Gourdes, 10 Gourdes and 250 Gourdes denomination and the possible introduction of a 25 Gourdes notes- equal to US \$5.00.

Regarding our telephone conversation, in which you said you were forecasting 35mm. notes (15mm-1's, 10mm-2's and 10mm-5's) for next year. M. Léger and I felt that this was possible, especially in view of the rapid expansion of the Haitian Economy. It would probably be divided into two orders. M. Bonnefil wants me in Haiti in October or November as he will have an idea by then of the requirements for an order for March 1973. The second order next year should be late in the year. Both orders around the 15mm mark. Regarding denominations, in which view of the Bank's feelings about the 2 Gourdes denomination, there may be less than 10mm-2's and an order for more 50 Gourdes notes.

Re: Banque Nationale De La Republique D'Haiti
Bank Notes - 400,000 - 50 Gourdes
200,000 -100 Gourdes

Dear Colin,

Pursuant to your request for a delivery date based on receiving an order in mid June for above subject bank notes, following would be our planned delivery.

Ship 200,000 - 100 Gourdes notes Sept. 19, 1972.
" 400,000 - 50 " " Sept. 28, 1972
600,000

Colin, if we were to receive this order it would mark the 3rd time within a year that we would be going to press on the 50 Gourdes and the 2nd time in the case of the 100's.

As you are aware, a sizeable portion of the cost of the production of these notes lies in the make ready and start up time of the tint printing which is performed in Chicago. The running time for these small quantities is relatively minor.

As such, would it be possible to induce the Bank to order in larger quantities or perhaps the International Division, based on a feel for the Bank's usage, could authorize us to have Chicago print additional tints.

These of course would be counted and delivered to us under secured conditions for storage in one of our vaults. When more notes would be required, all that would be necessary to print would be the intaglio portion and the proper numbers.

Such a procedure should result in relatively substantial savings both in delivery time and production dollars.

Re: Banque Nationale de la République d'Haiti
Bank Notes - 400,000 - 50 Gourdes
200,000 - 100 Gourdes

Thank you very much for your letter of June 2, advising the delivery dates for the above bank notes.

As to your suggestions regarding the "stock piling" of bank notes for the Banque Nationale, both Owen and myself agree that it can save the plant time and effort, and in the long run, the Bank money. However, we would like to take it further and suggest to the Bank that we print the complete bank notes for say, 3 years in advance, a total of some 80,000,000 notes.

I will be in Haiti at the beginning of next week "June 10th to 13th," and will put this suggestion to Mr. Bonnefil telling him that the advantages to the Bank of a) 3 years bank notes supply at 1972 prices, and b) shorter delivery time when they wish to re-stock their vaults supply.

I am sure you will agree that the advantages would be manifold, it would ensure a long run for the plant and would also mean that you could print these notes either in New York or England should they require a stop gap, and finally from the sales point of view, it would keep DLR out of Haiti for a few years.

In closing, I would very much appreciate yours and Mr. Foote's comments on this.

MEMORANDUM

BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI

Pursuant to instructions from Mr. McGehee, and in his absence, I telephoned M. Adrien Bonnefil, Sub Director of the above Bank, on Thursday June 8, and arranged to meet him in Haiti to advise him of our prices for 400,000 - 50 Gourdes and 200,000 - 100 Gourdes bank notes, an exact reprint of the Bank's previous orders.

On Saturday June 10, I met with Bonnefil socially and during the course of our conversations we discussed the prices I had brought with me: \$26.50/M for the 50's and \$33.00/M for the 100's. He told me our prices seemed considerably higher than both he and M. Antonio André, the President of the Bank, had been prepared for, and I explained that the reason was not only the annual percentage increase for labor and materials, but also when last quoting for this denomination we had been able to absorb some of the costs of preparing low volume denominations into those of the higher volumes.

On Monday June 12, I had arranged an appointment with André, the President of the Bank. However, on arriving at 9:30 a.m., Bonnefil told me that unfortunately the meeting would be postponed until the following day because the President had to receive a delegation of International Bankers. I spent most of the day with Bonnefil and at lunch we met the Minister of Commerce, Lebert Jean-Pierre, a friend of Mr. McGehee.

In view of the good personal relationship the Company has always had with Bonnefil, I asked his opinion on the viability of the Bank authorizing us to print a large quantity of his notes for three years in advance, pointing out that this plan would have both a price and a delivery advantage. He told me that DLR had also made similar suggestion, asking for advance orders of five years, but at that time the Bank thought this too long a period to "stock-pile" because of changing political scene. He added that he would quietly make an appraisal of their requirements in this period, and we would then be able to work out some estimated prices. We decided that an approach to the President at this time would not be advantageous, rather we should wait until we have made some calculations and then possibly present them to André at some future meeting, depending on conditions at the time.

INTERNATIONAL DIVISION

MEMORANDUM

- 2 -

June 15, 1972

It was not until 2:30 p.m. on Tuesday June 13, that Bonnefil was able to arrange a meeting for me with M. André, who received me very cordially with M. Martineau, Sub Director of the Issue Department. As was expected, they were surprised at our prices and after some discussions, I agreed to the lower price level of \$24.10/M for the 50's and \$29.90/M for the 100's, which Mr. Barrett had given me before leaving New York. I pointed out that the "short run" was the cause of the high price, and that if he would increase the volume, we might be able to reduce the price slightly. I left M. André's office at 4:00 p.m. having agreed to submit an additional estimate to the Bank for:

800,000 - 50 Gourdes
400,000 - 100 Gourdes.

Bonnefil also asked me to prepare, on a confidential basis, a quotation for the following quantities which he said he would try to "sell" to M. André:

1,000,000 - 50 Gourdes
500,000 - 100 Gourdes.

Although these amounts exceeded their initial requirements, André and Bonnefil felt it very likely that they would need more notes by the end of the year.

2) BANQUE NATIONALE DE LA REPUBLIQUE D'HAITI.

Port-au-Prince,
Haiti

June 20, 1972

Dear M. Léger:

Thank you for your letter of June 13 on new ABN security products. If you find any application for our services, please feel free to contact us.

For your information, M. Bonnefil has contacted us relative to an "urgent" order for 400,000 - 50's and 200,000 - 100's. We sent our new representative, Mr. Colin B. West to Port-au-Prince, however he was apparently unable to contact you for your advice as I instructed him to do so. In any event, after presenting our prices, US\$24.10 and US\$29.90 per thousand notes for the respective quantities to M. Bonnefil and M. André, he was told to have us calculate prices on larger quantities.

Accordingly, today I sent to Bonnefil two cables, xerox copies attached, for increased quantities at lower prices per thousand notes. I would think Bonnefil might be contacting us perhaps before this letter arrives in your hands. Your commissions have of course been included and we will advise you in due course of the outcome. Meanwhile, will you please inquire of Bonnefil about this perspective order.

Also, at your convenience, would you please tell me what did your daughter Joël finally decide to do for summer work. We had a desk set up for her here and because of insurance regulations we were going to enter her on our payrolls as a secretary in my Division. I presume she did not leave Haiti and perhaps is working with you there in your office.

With best personal regards,

Very truly yours,

Vice President

New York, N.Y. 10004

Dear Mr. McGehee :

I refer to your letter of June 20 and the reply made by Jean Claude on June 28. I have stayed in Europe somewhat longer than expected and regret to have missed your representative, Mr. West, during his visit.

I will contact Mr. Bonnefil this very morning and will advise you as soon as I have something more definite.

Thank you again for accepting my daughter Joelle, but as Jean Claude wrote you, she found a summer job with a small Investment Bankers Firm on Park Avenue and returned home end of June after a very pleasant visit in New York.

Very truly yours,

Georges N. Léger Jr.

GNLJr./jl

P.S. I just spoke to BNRH and Mr. Bonnefil informs me that an order for 400,000 notes of Gde. 1.00 and 800,000 of Gdes 50.00 have been placed and confirmed by you for delivery beginning early September for a total amount of \$28,576.00.

Please confirm if this agrees with your records.

JAN 19 1973

On Saturday December 2, I flew from the Dominican Republic to Haiti. I spent Sunday and Tuesday, which was a national holiday, with our Agent and his family at their beach home.

It became clear after my first meeting with Adrien Bonnefil on Monday 4 that the only way to make progress was to have a meeting with M. André, the Bank President. The decision that the officials of the Bank could not reach was whether to have a partial order of the lower denominations only or a general order for all denominations with a boosted up quantity for the 1 Goudes and 2 Gourdes, which are running short.

Eventually after a 2 3/4 hour wait on Friday, I met with M. André, who had been fully briefed by Bonnefil, and decided, upon Bonnefil's recommendation, to ask us for quotations this month or next for a partial order of 1's and 2's and possibly 5 Gourdes.

That evening, I went round to M. Bonnefil's house, as I usually do, to see whether he has any mail to be posted in Miami, and told him the outcome. He showed me a copy of his recommendation to M. André and was pleased his advice had been taken. As regards quantity, I doubt whether more than 10 million notes will be order, more likely 6-7 million.

M. André does not appear to be unduly concerned that dollars are now circulating in Haiti as regularly as Gourdes; however, several of M. Léger's friends remarked that, for nationalistic reasons, many Haitians would prefer to have more of their own currency in circulation.

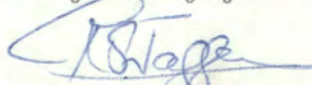

I was told that, wherever possible, Duvalier is putting pure black people in positions of authority. Bonnefil, himself, told me that his position in the Bank was becoming increasingly difficult because of his color. Duvalier also has scant respect for the Arab, mulatto and European french elite and shows socialist tendencies, although his personal life-style is luxurious.

The information you had that M. André had been put in jail in the fall was erroneous; in fact, he is very powerful indeed at this time.

We are in a strong competitive position in Haiti. Georges Léger, OUR Agent, is largely responsible for this. The Dela Rue agent, Brandt, has, I understand, become very senile and has sold out his business to his sons. There was some illfeeling involved in the family. I could not find out whether the De la Rue agency has remained with the father or moved to the sons.

I have just received a letter from Gerard Laurent in Haiti who is the head of the museum there. He reminds me of a commitment I made to him then to supply the national Museum with a framed collection of notes../

This took place in June 1970 when we were fighting hard to get back in to that market. I wrote formally to M. Bonnefil on June 16 1970 asking his permission to supply the Museum with a collection of notes, with, of course, the intention that the Bank should know of our generous offer. M. Andre got to hear of it and said that the Bank authorized our giving a collection of notes to the Museum and the Bank itself would very much like one also.

Little things like this go a long way in Haiti so would it be possible for you to give instructions for two framed collections of old notes of Haiti to be prepared. Better late than never, especially as we can expect a general reordering of notes around the end of this year and any time now a request for quote on two of the lower denominations.

Costa Rica

Dear Robert:

On your forthcoming visit to the Dominican Republic, I would also appreciate your visiting the above as a matter of courtesy. Should the Bank expect to place an order this year for notes, the sooner it does so, the better delivery we can arrange. For your confidential information, I am forecasting the Bank would place an order of approximately 30 million bank notes in three denominations for 1973.

Very truly yours,

Vice President
International Division

Trip Report
Banque Nationale de la République d'Haiti
March 22 - 27, 1973

Purpose: To present two framed collections of specimen bank notes, one to the National Museum, the other to the Banque Nationale. The specimens displayed dated from our first order in 1875 to date.

The two frames arrived via American Airlines very late, (sent March 17 - arrived March 22) with no shipping papers. Unfortunately, the glass covering the one for the Banque had been broken in transit, thus leaving the specimen notes exposed, but not damaged. The frame for the National Museum arrived in perfect condition.

The Banque: On Friday, Adrien Bonnefil, Vice President and Manager of the Banque, and I had a very extensive discussion at his home regarding the Banque, its present political situation, its future bank note requirements, the role of commercial banking in Haiti now that the First National City and Bank of Nova Scotia had been permitted to establish branch offices in the country, and the very volatile economic conditions which are favorably developing in Haiti. M. Bonnefil told me that soon the Banque would need new supplies of bank notes and that he could "arrange" the orders under either of the following two options:

1. Place large orders for say approximately 50,000,000 notes, spread over five denominations, in which case he said the Banque would be forced under law to call for an International Tender, approved and legalized by the Banque's Board of Directors, or
2. Continue to ask us "privately" for quotations on a succession of smaller orders, to be placed without going through the formality of public bidding. He said he personally preferred this option, even though, as I pointed out, the long-run cost to the Banque would be higher due to the small size of the orders.

In substance, we agreed to follow Option 2, and I told him our Company would do its best to render good service at the highest speed possible.

(M. Bonnefil is a very close friend of ours and continually recalled the time when my wife and I received his son at our home and found him a summer messenger job at ABNCo.)

Over the weekend, I saw several very important people at our Agent's beach home who have nothing to do with our direct business, yet all of whom gave me a very good "feel" as to the new business climate which is rapidly developing in the country.

-2-

Our Presentation: On Monday evening, M. Léger and his wife gave a very elegant cocktail-buffet at their beautiful home in Petionville where I officially presented our two framed collection of bank notes. The party was formal dress, and the following persons attended:

M. and Mme. Gerard Jolivois - Official Historian for the Republic of Haiti,
Office of Tourism and Information

M. and Mme. René Adrien - Director, National Banque of Haiti

M. and Mme. Adrien Bonnefil - Sub-General Manager and Director, National
Banque of Haiti

M. and Mme. Gerard Joseph - Director, National Banque of Haiti

M. and Mme. Max Emtaine - Minister of Labor

M. and Mme. Paul Raymon - Minister of Foreign Affairs

M. and Mme. Aubelin Jolicoeur - Public Relations Officer, National Office
of Public Relations

M. and Mme. Noe Fourclad - Director of National Banque of Haiti.

M. Antonio André, President of the Banque, had also accepted M. Léger's invitation; however, he was unable to attend, due to the illness of his wife.

In any event, the following morning our reception and presentation received front page attention in the National Government newspaper and several other private papers which most certainly gave our Company the publicity and prominence it deserves.

General: Because my staff and I are continually looking for possible opportunities for our Company, on our overseas visits, I had very extensive discussions with our Agent on the question of land costs, building sites, labor rates, customs duties and corporate taxes in Haiti. (M. Léger represents 23 U.S. coporations operating in Haiti and is quite qualified to render an expert opinion on the foregoing.)

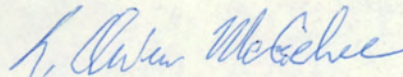

I discussed with him the possibility of our establishing and operating a small bank note finishing plant in or very near the port city of Port-au-Prince. M. Léger gave me the following information (in U.S. dollars):

1. Construction costs - approximately US\$1.00/sq. ft.
2. Labor rates for examination, cutting, banding, packing per day, US\$4.00 per person, including all fringe benefits, Social Security, and city taxes.
3. Five years free from importation duties of all machinery necessary for plant operations.

AMERICAN BANK NOTE COMPANY
INTERNATIONAL DIVISION

-3-

4. Ten years free from corporation income taxes.
5. Raw materials, in our case, sheets of bank notes, can be imported, processed, and re-exported without customs inspection or delay.
6. The National Banque of Haiti owns and operates an industrial park very near the International Airport and International Port. It is a duty free zone for "processing operations".
7. 24 hour/day uniform guard service is provided by the Haitian Army free of charge. No one is allowed into this area without specific arrangements beforehand.

Dear Mr. Jagger:

I am eager to let you know that the collection of bank notes printed by American Bank Note for Haiti has been delivered to us through the attention of Me. George N. Leger, Fils, attorney and of M. André Théard, Director General of the Tourist Office, who received it from Mr. Owen L. McGehee, Vice President International Division of the American Bank Note Co.

This beautiful collection, which goes back to 1875, is of much interest to our visitors and, especially, to the students of our schools. We believe it is you who deserve all the glory, since the interest which you have shown for the National Museum of Haiti and your efforts in our behalf helped us to obtain the collection.

In my name, as well as in that of the country which patrimony has been enriched, I present to you, M. Jagger, our sincere gratitude and request that you please accept the assurance of my highest consideration.

Cher Monsieur Jagger,

Je m'empresse de porter à votre connaissance que la collection de Billets de Banque imprimés pour Haïti par la American Bank Note nous a été remise par les soins de Me. George N. Léger, Fils, avocat et de M. André Théard, Directeur Général de l'Office du Tourisme, qui l'avaient reçue de M. Owen L. McGehee, Vice Président International Division de la " American Bank Note.

Cette belle collection, qui remonte à 1875, intéresse beaucoup nos visiteurs et particulièrement les élèves de nos écoles. Nous estimons que c'est à vous qu'en revient toute la gloire, vu l'intérêt que vous avez porté au Musée National d'Haïti et les démarches que vous avez faites pour nous aider à posséder cette collection.

Aussi, tant en mon nom personnel qu'au nom du pays dont le patrimoine par ce don se trouve enrichi, je vous présente, Monsieur Jagger, mes sincères remerciements et vous prie d'accepter l'assurance de ma très haute considération.

Port-au-Prince, Haiti

Dear M. Bonnefil:

Pursuant to my promise during my last visit with you in Port-au-Prince, enclosed herewith is a chronology of the bank note orders printed by us for Haiti from 1875 to date. I hope the data presented will be of interest to you and that it will be in accordance with the Bank's own records of these transactions. Obviously, orders placed with other companies are not included.

As I mentioned to you during our evening together at your home, when you feel the Bank is in need of more notes, please feel free to telephone me directly. Also please keep in mind that we would need considerable prior notice before we can effect the delivery of your order due to the fact that our plants are very heavily committed at this time.

From time to time I shall send Mr. Jagger to Port-au-Prince in order to keep in close contact with you and all of our good friends there. Hopefully I can return to see you as well. Meanwhile, please give my very best regards to Mme. Bonnefil.

MEMORANDUM FOR THE FILES

Subject: Banque Nationale d'Haiti - Bank Notes
Date: 11/9/73

E. L. F.
NOV 12 1973

M. Léger called from Port-au-Prince today advising that, following our call earlier in the week, he had visited the Bank and spoken with Antonio André, President, Gerard Martineau, Controluer, and Adrian Bonnefil, Sous Directeur.

M. André had ordered an immediate study of the Bank's bank note requirements and said that there would then be an invitation to public bid.

The order, according to Bonnefil, would be substantial and for the denominations of 1 Gourde, 2 Gourdes and 5 Gourdes. They are thinking of eliminating the 10 Gourdes denomination.

M. Léger said that in another two or three weeks, when some conclusions had been reached, it might be worth sending a representative to Haiti.

MEMORANDUM

FILING

FEB 21 1974

To: C. P. Foote, Jr.
From: L. O. McGehee
Date: February 20, 1974

Banque Nationale de la République d'Haiti

We have received a request for prices and delivery from the above bank for the following quantities of notes:

15 million	1 Gourde notes -	Previous order	2-2390-484
5 million	2 Gourde notes -	" "	2-0838-484
5 million	5 Gourde notes -	" "	2-2391-484
400,000	50 Gourde notes -	" "	2-5046-484
200,000	100 Gourde notes -	" "	2-5047-484

The Bank has requested the following delivery preference:

1's - October 1974
5's - October 1974
2's - November/December 1974
50's - March 1975
100's - March 1975

While we would, for pricing reasons, prefer that this order be produced in England, we would appreciate your acting as "print broker" in order to determine which location, either ABN or BW, could provide deliveries based on the Bank's request as outlined above. This order has traditionally been printed utilizing Crane's 258 paper, with planchettes, 5000 MDF, 2-plate underlying tints prepared in Chicago with Intaglio and finishing done by ABN-Bronx. We have never printed this order in BW. The order under contemplation would be a continuation of our original orders placed in 1971. I.e., numbers to follow, signatures to be the same, etc.

Would you please endeavor at your earliest convenience to advise us as to where we could prepare this order meeting the above delivery requirements as stated. For pricing reasons, we would appreciate receiving a delivery promise based on ABN production and a delivery promise based on BW production. Once these production schedules are in hand, we will then endeavor to determine selling prices.

Very truly yours, .

March 5, 1974

Mr. Chauncey P. Foote, Jr.
Sr. Vice President
American Bank Note Company
70 Broad Street
New York, New York 10004

Dear Chauncey:

Ref: 06-21 #258 Bank Note for Haiti

On Monday, February 25, Bob Sayre called Don Johnson and requested a quote as follows:

440,000 sheets 25-1/8 x 25-5/8, 81 Lbs./M--
35,640 Lbs.

153,000 sheets 26-7/16 x 26-1/16, 87 Lbs./M--
13,311 Lbs.

21,000 sheets 22 x 20-5/8", 57/M, 1,197 Lbs.

15,000 sheets 22 x 17, 47/M, 705 Lbs.

It is our understanding that this paper will be printed in England for delivery to Haiti to commence in October of 1974.

Don Johnson was authorized to quote Mr. Sayre on March 4 a price of 80¢ per lb., F.O.B. Dalton, usual terms. Included in this figure is packaging suitable for containerized shipment to England.

This quotation is subject to acceptance before April 15, 1974.

With best regards,

Sincerely,

CRANE & CO., INC.

March 6, 1974

Mr. C. E. Troy
Asst. Gen'l. Mgr. Mfg.
Bronx Plant

Banque Nationale de la Republique d'Haiti

We are in receipt of a cable from the above Bank, placing with us a firm order for an exact reprint of 5,000,000 notes of 5 Gourdes, as last prepared on Order 2-2391-484.

Customer is in urgent need of these notes, which are outside those included in the order now under consideration.

We should appreciate it if you would let us have your best delivery promise, urgently, based on production at the Bronx Plant.

The price to be given the Bank will be higher than B.W.'s quotation for a like quantity in the larger order for 5 denominations which will be negotiated during the coming week. A good delivery will undoubtedly temper their first reaction to the higher price.

Dear Robert:

Enclosed for your information are two communications relating to Haiti; i.e., 1) Insulaire's telex 3/5/74/0917, ordering urgently 5 mm 5 Gourde notes in addition to the original 25.6 mm quotation and (2) the letter of March 6, 1974, to M. André of the Banque, outlining two options. You will note the global costs and per thousand.

For your information, the details are as follows:

BW Selling Prices - telex 3/6/74/1231

Quantity	Denomination	\$ per mil	Sub-Total cost
15 mm	1	11.81	177,150
5 mm	2	12.59	62,950

MAR 12 1974

March 7, 1974

Banque Nationale de la République d'Haiti
Departement Commercial
Port-au-Prince, Haiti

Gentlemen:

With regard to your letter of February 12, 1974, which referred to your Telex of February 13, 1974, we are pleased to offer herein our proposals for supplying 25,600,000 bank notes, divided among five denominations and being reprints of notes previously produced by this Company for the Banque Nationale.

In view of the Banque's urgent needs, but faced with an unprecedented world-wide demand for bank notes, our proposal presents two options regarding price and delivery, as will be noted. As previously, we can guarantee the quality of the notes, regardless of the location of production.

PRICES

1. ABNCo. (Bronx, N.Y. production)

	200 thousand	100 Gourde	"	"	mid-June,	1975

The prices are quoted in and payable in U.S. Dollars, C.I.F. Port-au-Prince via truck and steamer from either plant in New York or London. They include printing cost, insurance to the Banque's vaults in Port-au-Prince and the cost of War Risk Insurance. However, all exchange taxes or imposts and increases in ocean freight or insurance rates over those currently in effect are excluded from the quotation. The exemption of the Banque Nationale from the payment of consular fees has been noted.

As the notes would be shipped in completed form, the insurance on shipments of bank notes, whether fully signed or not, is for the invoice value of the shipment plus 10 per cent; that is, only the value of materials and workmanship are insured plus 10 per cent.

Deliveries are contingent upon the prompt placement of the order, and prices are firm for a term of sixty days.

We wish to express again our gratitude for this opportunity once again to offer our services to the Banque Nationale.

Very truly yours,

AMERICAN BANK NOTE COMPANY

Mr. Taylor Peck
American Bank Note
International Division
70 Broad Street
New York, N. Y.

Dear Mr. Peck :

This is to confirm our telephone conversation of today. I spoke to Mr. A. André short time ago, and he verbally confirmed the order, asking that printing should start immediately.

Prices are accepted as quoted.

The formal printing confirmation will follow up within the next 48 hours, pending detailed inventory in the Bank vaults to determine whether shipment should be by air freight instead of ocean freight.

Such instructions will be included in the confirmation order.

Very truly yours,

Georges N. Léger Jr.

San José
Costa Rica

Dear Robert:

The BNRH has ordered 5 million bank notes of the 5 Gourde denomination at \$17.80 per thousand for a total cost of \$89,000.00 US currency. Also, enclosed for your information is a copy of ABN and Bradbury, Wilkinson proposals in response to the Banque's request for quotations on 25.6 million notes in 5 denominations. You will note a variation in the global and the overall value per thousand from the figures given you earlier. This is a result of a last-minute change in the value per thousand of the 100 Gourde note. That change was an increase of \$5 per thousand, giving the indicated \$46.45 per thousand, or a total increase of \$1,000.00. The change in BW is just the correction of an inadvertant reversal. It was all re-typed and cleared up before I departed Sunday.

The 5 by 5 project has ready in New York dates of :

- 1) 2 million the week of May 27 and
- 2) 3 million the week of June 3.

Truck and steamer C.I.F. Port-au-Prince. The Banque is considering the possibility of a) air shipment, b) raising the order by another 5 million, or c) raising the 5 Gourde figure in the "Gran" order to 10 million, an order on which, incidently, M. Bonnefil reports no competitor's quotation to date.

I hope that the operation was thoroughly successful and that you will be able to move things along in Haiti shortly. Messrs. Bonnefil and Leger join us in wishes for a rapid recovery. Owen has poison ivy of the eye, so I see John Field this evening at JFK re Saigon where he visited last week. We are expected there about March 25.

All best,

March 25, 1974

Port-au-Prince
Haiti

Dear George:

Confirming our telephone call of Friday, March 22, you reported no movement on the pending order for 25.6 million notes in 5 Gourde denominations because of the continued illness of M. Antonio André. While Robert Jagger is under doctor's orders not to travel until after April 1, you may wish to be in touch with him, should the situation change. His number in San José, Costa Rica is 25-37-10.

The Story of American Bank Note Company and the last French calendar are en route under separate cover. I am sorry our supply has been exhausted. Thank you for all your effective assistance on the order for 5 million 5 Gourde notes. It is well that I was in the office on March 13 and 14. John Field of Bradbury, Wilkinson came through from Saigon.

I look forward to a return to Haiti. Best regards.

MAY 23 1974

For E. H. Weitzen - Vierjahreszeiten
Munich, Germany

In response to our phone conversation May 7 re deliveries Ecuador,
present promise is as follows:

<u>25 mm - 50's</u>	<u>50 mm - 100's</u>	
4 mm end March '75	6 mm end May '75	
8 mm end April "	8 mm " June "	22 mm end May 1975
8 mm end May "	8 mm " July "	28 mm end June 1975
<u>-5 mm end June "</u>	4 mm " Aug. "	
25 mm	8 mm " Sept. "	
	10 mm " Oct. "	
	<u>6 mm " Nov. "</u>	
	50 mm	

In view of release of Haiti space which is now scheduled for Bronx,
and expected loss of Venezuela, which promises are as follows:

<u>Haiti - 25,600,000 notes</u>	<u>Venezuela-50mm 20's</u>
12,400,000 - May '75	10 mm end May '75
13,200,000 - June	10 mm " June "
	10 mm " July "
	10 mm " Sept. "
	<u>10 mm " Oct. "</u>
	50 mm

We would like to arrange an improvement in delivery schedule for
Ecuador if possible. Suggest as follows:

<u>100's</u>	<u>50's - same as now promised</u>
22 mm - end May '75	
<u>28 mm - end June '75</u>	
50 mm	

Must have reply no later than May 9 in order to revise schedules
with agent before presentation to Bank.

Re your inquiry Philippines - ABN contacts are as follows:

Dear M. André:

✓ Receipt is acknowledged with thanks of your letter of May 9, confirming the Bank's order for 25,600,000 notes in 5 denominations.

For the records, we should mention that the price for the total quantity is U.S.\$367,580.00, C.I.F. Port-au-Prince.

We assume that the signatures for these notes are to be the same as those which are being used on the 5 Gourdes notes we are presently producing for you, and should also appreciate your confirmation of the numbers to be imprinted on the notes of this latest order.

Please accept our expression of sincere appreciation for this further evidence of your confidence in us.

Very truly yours,

FEB - 3 1975

FROM: W. R. Barrett

SUBJECT: Meeting to Analyze Actual vs. Estimated Costs
on Haitian Bank Notes

I would like to outline below the salient points which emerged from our meeting at the Bronx, January 24th, on the above subject:

1. In general, the purpose of the meeting was to review the causes which resulted in an actual contribution margin of about 13½% instead of an estimated contribution margin of about 35% - for the recent order of Haitian bank notes.
2. The basic reasons for the bad contribution margin were:
 - a. The cost of an inordinate number of make-ups which were created to a large extent by the fact that a double letter prefix was inserted before the number on the bank notes, which resulted in a high rate of rejection due to improper fit of the number in relation to steel on the face of the bank note. It was felt that had examples of the rejected work been shown to top manufacturing management, a relaxing of the stringent quality control would have been granted, thus greatly reducing the number of make-ups required. It should be noted that this double letter prefix requirement was not known to the Manufacturing or Estimating Departments at the time the original estimates were being made.
 - b. The cost of banding was greatly in excess of estimate and Joe Steele felt this was largely his error since he had figured on one operation for this procedure, rather than two as were actually used. It does appear that two different operations are required for the proper banding.

- c. The cost of wrapping was exceedingly high and actual labor production was not up to standard.
 - d. All in all, the cost of direct labor was up approximately \$14,000 or 50% over estimate.
 - e. Variable overhead was up approximately \$33,000 of which two-thirds was attributable to the increased direct labor used, and the other third (approximately \$11,000) was due to the fact we were not using up-to-date information on the percentage relationship in the various departments between direct labor and variable overhead. It appeared that much of the increase in not using up-to-date standards occurred in the area of examination and finishing. In both cases, this increase was due to a higher cost of indirect labor.
 - f. After steel printing, examination of work produced a spoilage rate of approximately 9% - in other words, out of the 338,000 sheets printed, approximately 30,000 were considered bad. About 16% of these 30,000 (4800 sheets) were due to bad tint work prepared at Chicago, and another 20% of the 30,000 (6000 sheets) were rejected due to bad registration between steel and litho. At this point, it is impossible to tell whether this misregistration was due to bad steel or bad litho.
3. In order to prevent recurrence of this type of variance between actual and estimated costs, it was agreed that we would take the following steps:
- a. We will re-examine the possibility of automating the banding operation: going to shrink-wrap instead of Kraft paper wrapping, and exploring again methods of automating packing.
 - b. At the current time our procedure is to shrink-wrap American Express travelers cheques, First National City travelers checks (on the new order) and we will endeavor to obtain permission to shrink-wrap Bank of America's travelers cheques.
 - c. Our proposal to Ecuador offers shrink-wrap as an alternate to Kraft paper wrapping. In the future, on all bank note sales, our International Sales Department should endeavor to force the use of shrink-wrap and completely bypass Kraft paper wrapping which is an exceedingly slow and costly operation.

- d. I will check with Gus Carder to see what type of examination is performed on the tint printing and check the cost of increasing this examination. It may be that the additional cost of increasing examination will more than offset the cost of rejection of work after steel printing.
- e. Manufacturing will require that when spoilage in any department exceeds a certain percentage which will be set by Management, then each Department Head must immediately report to top Management for appropriate action.
- f. In the future, on large jobs which have been estimated, each Department Head will be given information as to the productivity expected in his own department on this particular job. The Department Head will notify Manufacturing Management if any sizeable variation from the standard occurs.
- g. Herb Bodensiek will try to pinpoint the exact causes of the greatly increased cost of variable overhead (mostly indirect labor) in those departments where this increase has occurred.

A review of the estimated costs on Ecuador which had been furnished by Joe Steele to the International Sales Department was held. It was agreed that all of these estimates were up-to-date and proper and thus if we succeed in obtaining this order, our actual realized contribution margin should be right in line with our anticipated contribution margin.

I think in a month to six weeks from now, we should hold a further meeting to see where we stand on the corrective actions which have been suggested.

APR 10 1975

Mr. S. F. D'Amato
Vice President - Operations
Bronx Plant

Dear Sal:

Re: Memo of 2/3/75 on Haitian Bank Notes

I refer to the above memorandum which was, in effect, Minutes of our meeting held at the Bronx on January 24th to analyze the difference between actual and estimated costs on Haitian Bank Notes.

It was concluded at that meeting that certain corrective action would be taken on large jobs going through the Plant in the future and I am writing at this point to make sure we are putting into force those agreed-upon procedures. The Minutes specifically mentioned the proposal on Ecuador which we at that time were submitting. As you know, we now have the order and we should most certainly do everything we can to maximize our actual contribution margin. It was most discouraging, in this connection, to learn from Owen that we have already under-estimated our paper costs by some \$18,000. It is my understanding that this under-estimate came about because we had not taken into consideration the necessary overlay for the printing of the litho tints in Chicago.

Sincerely,

William R. Barrett

Dear Gus:

Re: Haitian Bank Notes and the
Forthcoming Order for Ecuador

I do not know whether or not I sent you a copy of my letter I wrote on February 3rd which was in effect the Minutes of a meeting held at the Bronx Plant on January 25th. If not, I apologize because as you will see from the attached there are some references to Chicago on Page 2, Paragraph F, and on Page 3, Paragraph D.

Since we now do have the Ecuador job, and since you will be doing the litho printing, I would appreciate your comments, particularly on Paragraph D on Page 3.

Sincerely,

William R. Barrett
President

✓
Your Memos 2/3/75 and 4/9/75
Haitian Bank Notes

You are quite correct in your 4/9 memo in that corrective action was to be taken by manufacturing in an attempt to avoid repetition of the problems and the resulting low contribution margin from the recent Haitian Bank Note order (1 Gourde).

Addressing ourselves to the pertinent items in your memo of 2/3/75, the following action has, or is being taken:

?
Item 3e - Attached is a memo by Charlie dated 2/30/75 relative to a possible future high waste problem. In effect, it is now the responsibility of the foremen or Supt. "to ring a bell" when waste becomes excessively high. An appraisal will then be made as to the economics of processing part waste sheets vs a partial reprinting of the job in question.

Item 3f - Attached is a set of the new cost estimate sheets which, as an example, outline the figures used by Joe Steele in working up the production costs for the Honduras 10 Lempiras notes. Similar cost estimate sheets will be generated for every large job, or new job, to be produced in the Bronx.

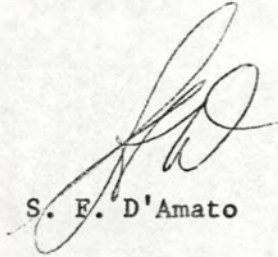

The figures to be put on these sheets will represent those estimated by the various departments and supplied to Joe in working up the cost figures. Some time before starting on a given job, these figures will be sent to the respective departments as a record of their estimation of the required times and rates.

As soon as possible after starting the job, the actual rates and/or times will be compared against estimated. This will be done at the lowest possible level of supervision and by those responsible for establishing the estimated figures. This comparison should and will be maintained throughout the entire job. Any significant variances will be immediately reported in order to permit possible corrective action.

C. E. T. has had a meeting with the Genl. Superintendents summarizing these procedures as follows:

- 1) Cost sheets are to be generated by Joe using information supplied by the various departments. (This information should come from the lowest possible level of responsible supervision.) There should and will be a test of reasonableness of these figures.
- 2) The resulting sheets are to be sent back to the respective Genl. Supts. who will see that copies or figures are then supplied to their various department superintendents and/or foremen, to be used by them for comparison against actuals.
- 3) Significant variances will be immediately reported upward for possible corrective action.
- 4) The generated cost sheets will also be used by the various departments to compare the operations used for the estimates against those in the order sheets. If the order contains "complications" which were not considered in the estimate, this fact will be made known immediately.

The risk here, Bill, with this procedure is that attempts will be made with future estimates to overstate the rates or costs in order to produce future positive variances. However, with our manufacturing people, I am sure this has a low order probability. I am, likewise, certain that when the problems arise there will be no hesitancy to "ring the bell" since this entire procedure is aimed primarily at improving our estimates and catching problems as early as possible, as opposed to placing blame.

to
New York

By one of those strange tricks of fate, I walked out of the elevator in the hotel in Miami where I was staying en route to the Dominican Republic and Haiti and walked slap in to Georges Leger and his wife Jou Jou; they were in Miami for a wedding and from there he was proceeding to San Diego, maybe Las Vegas to watch some tennis and then to New York; we dined the three of us at Chez Vendome in the David William Hotel. During our conversation, it came out that M. Leger had been given a considerable warning by his doctors to take things easy, as he has a bad case of high blood pressure. His brother, who is about the same age, had a bad heart attack in 1970. I suspect that M. Leger's condition was not improved by the highly complex and vital negotiations he had to carry on in December between the government of Haiti and Reynolds Mines, who he represents as lawyer; the outcome of the negotiations seems to have been a success for both sides in that Reynolds maintained control of its operations and the government will tax them to the tune of around 7-8 million dollars per annum. M. Leger also remarked that he looked forward to seeing Mr. McGehee in New York and discussing matters regarding the cut in commission he took on the last order; I don't think he quite knows what he wants to discuss yet but beware! we more or less agreed between ourselves that it was better to get half of something than the whole of nothing. Leger also gave me fuller information regarding the scandal of the postage stamp issue in Haiti, which has put 11 people in to jail to date, including the Minister of Commerce. It seems Leger was approached some while ago by the perpetrators, with a view to our doing the printing and, according to him, he 'phoned you and advised against it. Leger said he had good contacts in the Dominican Republic and was confident he could help us there. Finally, he told me that he had received my cable advising my arrival and had made me a reservation at the Villa Creole and given advance warning to Adrien Bonnefil of my arrival.

I spent a couple of hours in the Bank with Bonnefil and, as I always do, had cocktails with him and his charming wife Paula at their home; I took them some gifts and picked up a mountain of mail for posting in Miami; in the Bank, I gave Bonnefil and the other Sub-Managers the last of my ABN Co magnifying glasses, which are always much appreciated. Our conversations on business were not in any way surprising; I warned them about slow deliveries and higher prices, which did not come as a surprise. Bonnefil said that it was unlikely that the Bank would change its traditional pattern of bank note purchases, which as you know depends primarily on the coffee harvest in September and October; around September of each year, Bonnefil starts requesting by memo to M. André a new order of notes for delivery the following September so that there will be enough money in circulation to pay harvest workers, producers, middle men etc. It can be as much as 6 or 7 months later that M. André gets around to putting out tenders or telexing firm orders to us as he did last year. The matter always rests in abeyance until it becomes an emergency and Bonnefil doubted whether things would change. I asked whether the influx of tourism was creating a drain on the money supply and he replied that the drain was slight as US Dollars were normally

used in tourist transactions and remained in circulation; I noticed this at all levels of commerce. Our business in Haiti would undoubtedly double in volume if the use of US Dollars was prohibited or restricted. Despite the ready use of cash dollars, Haiti will be a rapidly expanding market for us provided the stability of the new Duvalier regime is maintained, creating as it does a propitious climate for foreign investment and an opening, after many years of absence, to an influx of foreign aid from the US, Canada, France and some African countries.

ACTION

We should send someone to Haiti again in October - November of this year who should not leave the country until he has seen M. André and explained to him face to face the necessity for them to order before the end of this year to have notes in time for the coffee harvest of 1976. M. André is always difficult to see, as he does not delegate responsibility to subordinates and always receives foreign delegations; the best way is to sit in his outer office for hours if need be until he feels guilty about you; HE KNOWS you are there because he has a closed circuit TV screen by his desk so that he can see who is waiting for him. The last time I saw him I waited 2½ hours and when I went in he was very concerned about my long wait and asked me whether I had enjoyed the coffee!

OCT 10 1975

October 8, 1975

M. Adrien W. Bonnefil
Sous-Directeur
Departement Commercial
Banque Nationale de la
Republique d'Haiti
Port-au-Prince, Haiti

Dear M. Bonnefil:

Some time has elapsed since we last communicated, which, I suppose, is a sad consequence of the fast pace of life nowadays. I trust this finds you and your family in good health.

In reviewing our records at American Bank Note we notice that the last bank note order placed by Banque Nationale was in May, 1974. In anticipation of your needs, it appears that the Bank would be served best by receiving a delivery of lower denomination bank notes in September or October of 1976.

In the recent past Haitian currency has been one of the few bank note orders to be produced in our New York plant. At present, however, our bank note capacity is rapidly being filled. For example, on a recent reprint order, our earliest delivery promise was eight months from date of contract. This interval is likely to lengthen as plant schedules become more heavily committed. We respectfully suggest, therefore, that the Bank consider seriously placing an order before the first of the year, since we would very much regret being unable to meet the requirements of the Bank, which we have had the honor to serve for over 100 years.

At your convenience, perhaps you will advise us as to the quantities you estimate necessary for next year's use, so that we may prepare an offer for your consideration.

With best personal regards

Very truly yours,

AMERICAN BANK NOTE COMPANY

American Bank Note Co.
70 Broad Street
New York, N. Y. 10004

Dear Mr. McGehee :

Last week end, a change took place in the Board of Directors of Banque Nationale de la République.

Mr. Antonio André was not reelected Chairman of the Board, but instead was appointed Minister of Commerce and Industry; the former Minister of Commerce and Industry, Mr. François Murat who had previously been an Assistant-Manager and Head of the Commercial Department of the Banque, was elected Chairman of the Board and President of the Banque, replacing Mr. André.

Mr. Frank Bouchereau, formally Assistant-Manager, has been appointed to replace Mr. René Adrien who was not reappointed; Mr. Adrien was Head of the Commercial Section of Banque Nationale.

A very welcomed promotion is that given to our good friend Mr. Adrien Bonnefil who was elected Vice Chairman of the Board and Director, becoming therefor the second in line in the Administration of Banque Nationale.

I thought that these information might be of interest to you, and remain,

Very truly yours,

Georges N. Léger, Jr.

Dear M. Leger:

✓ Receipt is acknowledged of your letter of October 7, relative to the reassignment of officers in the Bank. We were interested and pleased to learn of the appointments of our friends in the Bank, all of whom well deserve their promotions. Cables of congratulations have been sent to each of the men, copies of which are enclosed.

10/8
As you will have noted from your copy of our letter to M. Bonnefil of last week, we hope to be hearing from him soon with regard to a new bank note order.

With thanks for keeping us advised,

Very truly yours,

Kathryn B. Howard
Sales Administrator

FOREIGN DEPT.
A. B. N. CO.

Dear Mr. McGehee:

10/8

I have had a very pleasant talk with Mr. Bonnefil during the course of a meeting on some other subjects. I took the opportunity of recalling to his attention your October letter and underlining the necessity to project their order at least nine to twelve months before actual delivery.

Mr. Bonnefil stated that for the current crop, the Bank would be all set up with different types of bank notes but would definitely be short for the next year, starting late October mid-November.

He is going to ask a complete inventory and will review the situation with Mr. Murat some time in the middle of November. He will be away from his office from approximately November 8th to November 20th, going, I believe to Uruguay for some kind of conference.

I believe that a visit by a representative of American Bank Note would be a good move, if it can be arranged for the end of November or early December.

Mr. Bonnefil, of course, could not make any commitments of any nature with respect to a possible order.

Please keep me informed of your decision in this matter.

With very best regards, I remain

Yours sincerely,

Georges N. Léger, Jr.

Dear M. Léger:

Thank you for your letter of October 29 relative to your conversation with M. Bonnefil. We also received a short note from him in Miami advising that he would be pleased to answer our October 9 letter upon his return from Uruguay.

In accordance with your suggestion, we plan to send a company representative to Haiti in late November/early December. We will be in touch with you further later in the month to decide upon the most convenient time.

Very truly yours,

Vice President

DEC 12 1975

MEMORANDUM TO THE FILES

Banque Nationale de la
République d'Haiti

At Mr. McGehee's request, at 1:00 p.m. I spoke to our agent, M. Léger, by telephone to give the pricing and delivery information we have telexed today to the Bank, pursuant to their telexed request for quotation dated December 8.

In addition to the C.I.F. prices given to the Bank (see telex), I gave M. Léger minimum prices for each denomination, below which we cannot go, but which he can use as a guide in negotiating with M. Bonnefil, as follows:

1 Gourde notes	10 million	US\$21.52/M	Sub-total US\$215,248
5 Gourdes notes	4 million	US\$28.92/M	115,679
50 Gourdes notes	400,000	US\$57.72/M	<u>23,086</u>
TOTAL			US\$354,013 C.I.F. Port-au-Prince

The price quoted to the Bank for the total order is US\$368,715, which means we are prepared to lower our price by \$14,702, or 4 percent. (The figure \$368,715 will yield a contribution margin of 47% after commission, which is included, and the \$354,013 figure will yield a CM of 45%.)

M. Léger was pleased with our rapid deliveries and indicated that his impression from previous conversations with M. Bonnefil was that the Bank expected to pay a premium for such service.

M. Léger also said that the Bank will call for bids for a larger order of different denominations before the end of the year. He said that the Bank will eliminate the 2 Gourdes note and his guess is that the 20 Gourdes will also be eliminated and replaced by a 25 Gourdes note.

As a possible future defense, I told M. Léger that while we hoped that for larger quantities of notes our prices would be lower than this bid, nevertheless, the reduction would not be substantial, as we did not calculate today's numbers on an overtime basis, although it might seem so because of the quick delivery and high prices. I mentioned to him that our industry is an expensive one in that the input we must utilize is costly, i.e., paper and highly skilled labor.

M. Léger will call us tomorrow after speaking with M. Bonnefil.

FILED
FEB 28 1977

Dear Mr. Troy:

REF: Bank Note for Haiti

This is to confirm verbal quotations given yesterday to Mr. Steele for two grades of paper to cover the following inquiry:

604,800 sheets, Sub. 23.57, 25-1/8 x 25-5/8 - 81M: 48,988 lbs.
311,112 sheets, Sub. 23.57, 26-7/16 x 26-1/16 - 87M: 27,066 lbs.
22,400 sheets, Sub. 23.57, 14-5/8 x 20 - 37M: 829 lbs.

76,883 lbs. total to be delivered first quarter of 1976 for April/
May printing.

For Standard #29 Bank Note, our grade 06-21, #258, the price would be \$1.08 per pound.

.80
315174
+3590

For our grade 06-20, #206-X Bank Note, the price would be \$1.135.

Of note is the fact that there are no fluorescence level specifications for the 258 grade, whereas the 206 is dead for fluorescence, contains no surface sizing and is felt to be a better sheet for Bank Note applications.

This quotation is valid for orders received on or before Monday, the 15th of December, 1975, and the usual terms of FOB Dalton, 2% 30 days, Net 31, would apply.

With best regards.

Sincerely,
